# Karla Sutra

The Paris based artist Karla Sutra is famous for her subtle aphrodisiac tiles. She tricks the eye and stimulates senses by using the mural ceramic rhythm hiding her lovemaking figures she calls “sauteries illusionistes”. Equally inspired time by the Mediterranean architecture, modern art, Japanese Hentai and the Kama Sutra, the Catalan artist creates erotic azujelos.

# FABRICATION

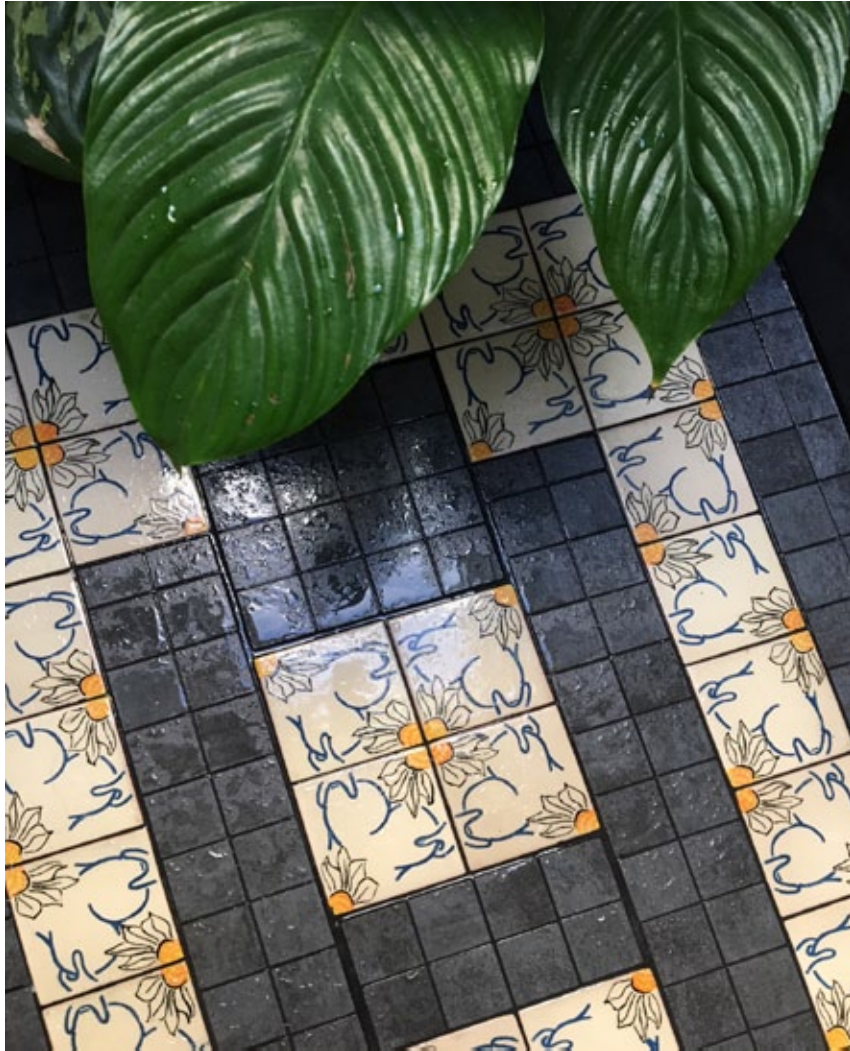

La Bisbal d'Empordà is the Catalan capital of ceramics, the first narratives about its potters were written in 1511. It is located between Figueres and Girona. The red clay, typical of the region, is worked here by generations of artisans, artists, creatives and alchemists. The art of fire is an ancestral know-how of the city, where you can find these beautiful potteries bordered by this red so characteristic obtained after the clay has been cooked and their Mediterranean colors. This is where the couple of passionate artisans who created the tiles of Karla Sutra are installed. All the tiles are completely handmade.
